ABOUT CIPS

Since its foundation in 2007, the Centre for International Policy Studies (CIPS) has informed and stimulated debate about contemporary global issues and Canada's role in world affairs. Committed to excellence in research, CIPS has two focus areas – international security and global governance. Drawing together professors and graduate students in five research networks, we also collaborate with researchers around the world. Located in Ottawa, at Canada's preeminent bilingual university, CIPS is a dynamic meeting place for scholars, policy makers and international activists and a vibrant hub for the exchange of new, challenging and innovative ideas about global politics. Every year, CIPS organizes a range of workshops, conferences and invited speakers' series, most of which are open to the public. CIPS' highly successful Blog, written only by subject-matter experts, is recognized as one of the top foreign policy blogs in Canada and the world. CIPS is jointly funded by the Faculty of Social Sciences and the Office of the Vice-President, Research and Innovation at the University of Ottawa.

YEAR IN REVIEW

The past year was an exceptionally strong one for the Centre for International Policy Studies (CIPS). Across research, publications, events, and outreach, the Centre demonstrated with clarity its distinctive capacity to bridge disciplines, connect scholarship with practice, and contribute meaningfully to both scholarly debates and real-world policy discussions. In a period marked by geopolitical uncertainty and growing strain on global, regional and national institutions, CIPS reaffirmed its role as a trusted, intellectually vibrant, and policy-relevant hub for events and publications on foreign policy and international affairs.

A defining feature of CIPS's work in 2025 was its sustained commitment to **multidisciplinarity**. Research initiatives brought together perspectives from political science, economics, law, history, development studies, security studies, and science and technology studies to address complex global challenges that cannot be understood through a single lens. These initiatives went beyond parallel disciplinary contributions to generate genuinely integrative analyses—linking questions of power, governance, markets, knowledge, and norms in ways that advanced both conceptual understanding and empirical insight.

Equally central to CIPS' identity was its ability to **cross boundaries between academia and the world of practice**. Throughout the year, CIPS events and research activities consistently convened scholars alongside diplomats, policy makers, civil servants, civil society actors, and industry representatives. Major conferences and workshops created spaces for informed, candid, and forward-looking dialogue on issues ranging from Canada's foreign policy positioning to the future of multilateral governance. These exchanges ensured that academic research was tested against policy realities, while practitioners benefited from analytically rigorous and evidence-based perspectives.

CIPS' research networks played a particularly important role in sustaining this boundary-crossing ethos. In 2025, the Centre's thematic networks fostered ongoing engagement across methodological, regional, and substantive divides, strengthening scholarly communities that are both analytically ambitious and outward-facing. By bringing together faculty, students, and practitioners, these networks not only advanced cutting-edge research agendas but also provided vital spaces for mentorship, collaboration, and intellectual exchange, especially for emerging scholars.

The Centre's publication record further underscored its dual commitment to **scholarly excellence and policy relevance**. Policy Briefs, Working Papers, and Policy Reports addressed pressing international challenges with clarity and analytical depth, offering concrete insights and recommendations for policy audiences while contributing to wider academic debates. At the same time, the publication of the latest volume of *Potentia*, the CIPS Graduate Student Journal, highlighted the Centre's ongoing investment in nurturing the next generation of international affairs scholars and amplifying graduate research within broader scholarly and policy conversations.

CIPS also continued to expand its **public and digital presence**, notably through an active blog authored exclusively by subject-matter experts and a growing engagement on social media platforms. These channels extended the reach and impact of CIPS research well beyond campus, helping to make complex global issues accessible to wider audiences without sacrificing analytical rigor.

Taken together, the activities of 2025 clearly illustrate CIPS' distinctive added value: the ability to convene diverse voices, foster multidisciplinary research, and translate scholarly insight into policy-relevant knowledge. The Centre's work this year not only advanced academic debates but also made substantive contributions to understanding—and addressing—the most pressing international challenges facing Canada and the world.

As Director, I am deeply grateful to the faculty members, researchers, staff, associates, students, partners, and supporters whose energy and commitment made this work possible. Their collective engagement continues to define CIPS as a space of intellectual openness, rigor, and impact. Building on the momentum of 2025, the Centre is exceptionally well positioned to continue strengthening its contributions to international scholarship and policy-relevant debate in the years ahead. My colleagues and I look forward to welcoming you to future CIPS events and continuing these conversations together!

Alexandra Gheciu, Director of CIPS

RESEARCH AT CIPS

RESEARCH CHAIR IN SCIENCE DIPLOMACY

The University of Ottawa and the Embassy of France in Canada initiated the Research Chair in Science Diplomacy to tackle unique science diplomacy challenges. Patrick Fafard, from the University of Ottawa, & Pascal Griset, from the University of Ottawa, & Pascal Griset, from Sorbonne Université in France, are the co-chairs.

Among other activities, in February 2025, Patrick Fafard gave a talk titled, "Science Diplomacy in an Increasingly Fragmented and Uncertain Geopolitical World: A Confluences Grand Challenge Action Dialogue". He also wrote a blog in March: "Thinking Critically About Science Diplomacy: What Does It Mean To Give Scientists A 'Seat At The Table'?".

REREADING THE STATE 'FROM BELOW', IN FRAGILE STATES AND SOCIETIES IN CONFLICT

The "Rereading the State 'from Below', in Fragile States and Societies in Conflict" project was initiated in early 2022 and interim reports were released in June 2023 and May 2024. The results of field research in Burkino Faso, Haiti and Lebanon were presented at a CIPS event on October 20, 2025 titled, "Rereading the State from Below in Contexts of Conflict and Fragility: Burkina Faso, Haiti, and Lebanon". The researchers are also planning to launch a comparative analysis to begin to identify broader avenues for understanding.

CANADA'S CRITICAL MINERAL DIPLOMACY

This partnership initiative, led by Wolfgang Alschner & Patrick Leblond, brings academia, industry and think tanks together to investigate and evaluate Canada's critical mineral diplomacy. It asks a simple but pressing question: *How effective are Canada's instruments of economic statecraft in delivering secure and sustainable critical mineral supply chains that connect Canada with the world while reducing over-dependence on China?*

A public panel titled, Canada's Emerging Critical Mineral and Metal Diplomacy, kicked off this research project on September 25, 2025.

CIPS RESEARCH INITIATIVES

The 2024/2025 winner of the CIPS Research Initiatives (CRI) competition was a research project titled "Conflict, Democratic Backsliding, and Diaspora Politics in Canada", led by Bantayehu Chanie, Philippe Frowd & Christina Clark-Kazak. In 2025, they held a Call for Papers, as well as their First Virtual Workshop, which brought together 27 scholars and researchers from across Canada and abroad. During the workshop, 18 abstracts were presented. An upcoming in-person workshop will be held in Ottawa in Spring 2026. In November, the 2025/2026 Call for Applications was launched. The winner will be announced in early 2026.

RESEARCH AT CIPS

ASIAN STUDIES NETWORK

The ASN was created to enhance knowledge and understanding of the Asia region within the University of Ottawa community.

It held three events in 2025, including:

- EU-Taiwan Relations: What Can Canada Learn? featuring Zsuzsa Anna FERENCZY and moderated by André Laliberté.
- Will Global Civilization and World Order Survive the Decline of the West? featuring Amitav Acharya and chaired by Pascale Massot.

INTERNATIONAL THEORY NETWORK

The goal of the ITN is to bring together Ottawa-based scholars, students and practitioners interested in the theories of International Relations and cognate fields.

It held 6 events in 2025, including:

- Modi's Operandi: Effect of Ethnonationalism on Indian Civil-Military Relations, featuring Manaswini Ramkumar and chaired by Srdjan Vucetic.
- The Digital Ripple of War: Civilian Harm, Accountability, and the Battle for Truth, featuring Emily Tripp and chaired by Nisha Shah.

INTERNATIONAL POLITICAL ECONOMY NETWORK

IPEN brings together Ottawa-based scholars, students and practitioners interested in understanding the political, social and cultural dynamics of the global economy.

It held 5 events in 2025, including:

- How the Insurance Sector is Practically Ignorant to Climate Risks: Anosognosic to Uncomfortable Knowledge featuring James Jackson and moderated by Ryan M. Katz-Rosene.
- Getting Action in World Politics featuring Leonard Seabrooke and chaired by Jacqueline Best.

In other IPEN news:

- Professor Pascale Massot's book "China's Vulnerability Paradox: How the World's Largest Consumer Transformed Global Commodity Markets", won 2 prizes.
- Professor Ryan Katz-Rosene recently published a book titled "The Growth-Environment Debate".
- Professor Jacqueline Best's paper titled "The Fragility of Depoliticization: Revisiting the History of Central Bank Inflation-Management" was published in January 2025.

GENDER, PEACE, AND DEVELOPMENT RESEARCH NETWORK

The GPD-RN provides a platform for exchange and collaboration among University of Ottawa researchers, students as well as colleagues in other institutions including NGOs and government officials, who work on the overlapping themes and research priorities related to 'gender equality', 'peace and security', and 'international development'.

It held 8 events in 2025, including:

- What Can We Learn From How Canada's FIAP is Landing in Latin America and the Caribbean?
- Strengthening the Representation of Women in Diplomacy: Challenges and Policy Solutions
- 'Forgotten' Crises and Implications for Women, Peace, and Security

SECURITY STUDIES NETWORK

The SSN brings together scholars, students and practitioners interested in various aspects of international and domestic security.

In 2025, they held two events:

- Decolonial Research & Knowledge: Perspectives on Ceremonial Transformations and Climate Resilience, featuring Ranjan Datta & Jebunnessa Chapola, and chaired by Philippe Frowd.
- Curating Data for International Security: Trust and Care in Multi-level Information Systems, featuring Matthias Leese and chaired by Philippe Frowd.

GRANTS RECEIVED BY CIPS MEMBERS

CIPS members were highly successful in obtaining research grants to advance their work. Some examples include:

- **Benjamin Zyla** - The Practice of Local Knowledge Acquisition, Filtering, and Integration in International Peacebuilding Organizations (IPBOs): A Comparative Case Study Analysis (SSHRC Insight Development Grant)
 - Professor Zyla continues to research the best techniques for peacekeepers and peacebuilders to incorporate local knowledge and expertise into their procedures.
- **David Murakami Wood** - Governing (Post-)Smart Cities: Asian Approaches (SSHRC Knowledge Synthesis Grant)
 - Professor Wood will continue research on how AI and other technological innovations are dramatically and rapidly changing municipal governance systems, as well as challenging the traditional idea of "smart cities" through the integration of AI into transportation and administration procedures.
- **Thomas Juneau** - Through a Glass, Bright: Assessing National Security Transparency in Canada (SSHRC Insight Grant)
 - Professor Juneau will examine the accessibility and accountability of national security organizations in Canada.
- **Larisa Kurtovic** - Capturing the Elements: Politics of Green Transition and New Activist Fronts in Bosnia-Herzegovina (SSHRC Insight Grant)
 - Professor Kurtovic will study the "Green Transition" in Bosnia-Herzegovina

RESEARCH HIGHLIGHTS

THE ONCE AND FUTURE WORLD ORDER
AMITAV ACHARYA

Will Global Civilization and World Order Survive the Decline of the West?

Tuesday, September 23
2:30pm - 4:00pm
FSS 4004 and via Zoom

Chair:
Pascale Massot

Speaker:
Amitav Acharya

September 23, 2025

In this talk, Amitav Acharya drew on his new book, which covers 5000 years of history, to show that world order has never been the monopoly of any civilization or nation. He concludes that the future world order will not be shaped by one, two or a handful of great powers, but by a "global multiplex".

November 12, 2025

Ms. Charlotte Bué, Head of Division for the United States and Canada, European External Action Service, joined us for a conversation about the current state of Canada-EU relations, highlighting how Canada and the European Union have recently rediscovered their many commonalities and intensified their cooperation.

FULL DAY CONFERENCES

AMBCANADA – CIPS CONFERENCE: FINDING CANADA’S PLACE IN A DISORDERED WORLD

In May, CIPS and the Canadian Ambassadors Alumni Association (AmbCanada) held their first-ever joint foreign policy conference. The event included the following three panels:

- [How Much Can We Rely on Our Traditional Alliances?](#)
- [How Should We Engage the Rest of the World?](#)
- [How Does This Change Our Diplomacy?](#)

The event ended with [concluding reflections](#) by Senator Peter Boehm.

INDIGENOUS PEOPLES AND THE MUSEUM IN THE INDO-PACIFIC

This half-day conference, held in November in partnership with the ASN, the Research Chair on Taiwan Studies and the School of Sociological and Anthropological Studies, explored the relations between nations as revealed through museum practices and collections, including the presence of Indigenous peoples in Canada’s museums. How can the museums across the Indo-Pacific contribute to reconciliation and the engagement of Indigenous peoples in people-to-people diplomacy? It featured a [keynote address](#), along with a [number of academic presentations](#). Read the [related blog](#).

WORKSHOP:

“SAVING THE FURNITURE: WHICH ELEMENTS OF THE MULTILATERAL SYSTEM MUST BE SUSTAINED – AND HOW?”

This workshop, held in September and organized by CIPS and the Norwegian Institute of International Affairs (NUPI), explored which elements of the multilateral order can or should be rebuilt, reformed, or protected. It featured the following elements:

- [Welcome & Opening Remarks](#)
- Panel: [“What is the Future of the Multilateral System – and What Can Be Done?”](#)
- Plenary discussion of: [“Saving the Furniture: Which Elements of the Multilateral System Must be Maintained – and How?”](#)
- Panel: [“Saving the Furniture: Global Governance of Trade, Tax and Finance”](#)
- Panel discussion: [“Saving the Furniture: Climate Governance”](#)

The Ethiopian diaspora in Canada held a significant protest in Ottawa on November 19, 2024. The demonstrators carried posters denouncing the Ethiopian regime. Messages such as 'Stop the Amhara genocide', 'Justice for the Amhara people', were prominently displayed. From City Hall, the demonstrators marched to Parliament Hill, where community and religious leaders from the Amhara community across Canada delivered passionate speeches. This article analyzes the conflict in the Amhara region and the resulting gross human rights violations. It highlights the main driving factors for the conflict and offers recommendations.
